

UNION BUDGET HIGHLIGHTS

Complete Economic Analysis

Introduction

The Union Budget of India is an annual financial statement presented by the Government of India that explains the estimated income and expenditure for the upcoming financial year. It is prepared by the Ministry of Finance and presented in the Parliament.

The Union Budget plays an important role in determining the country's economic direction by focusing on areas such as economic growth, infrastructure development, employment generation, taxation policies, social welfare schemes, and financial stability.

The Union Budget 2025 focused on strengthening economic growth, supporting middle-class citizens, promoting infrastructure development, encouraging investment, improving technology adoption, and creating opportunities for employment and entrepreneurship.

History of Union Budget

The first Union Budget of independent India was presented on:

26 November 1947

by:

R. K. Shanmukham Chetty
